

UPDATE: USA-S Background Screening Changes

On the USA-S website, there are now only two options when completing a background check. The first option is a "New Member" background check and the second option is a "Renewal". The previous choices were Coach/Official or Non-Athlete Member. The non-athlete member choice was for all non-athlete members who were not a Coach or Official. Renewals have not changed.

Members that initiate a renewal will continue to be processed at whatever level they were originally, but if the membership status is changed to official or coach, a "New Member" check will need to be initiated in order for that member to have a coach/official level background check.

EXAMPLE: Susie Parent originally initiated a Level I check in 2014 and will continue to renew at this level UNLESS she wants to change her membership to coach or official, instead of "other". If she is changing to official or coach, she will have to complete a "New Member" background check before the change can be completed.
